

INNOVATES, ENABLES, PERFORMS **at SLAS2015**

Washington, DC, 7th-11th February

Meet with Axxam representatives at **Booth # 1625** to receive information on:

- Hit discovery services
 - Ion channel technology, including Optogenetics and voltage sensors
 - High Throughput screening including HCS and radiometric screening
 - Our new AXX^{DIV2.0} compound library
-

Mark your calendar !

Podium Presentation: Monday 9th from 4.00 – 4.30 PM

Track: Automation & High Throughput Technologies

Shining light into HTS applications

the application of an optogenetic tool to study Cav1.3 blockers

Speaker: Michela Stucchi , Axxam SpA

Axxam Scientific Posters:

1108: **Application of an optogenetic tool to study Cav1.3 blockers** (*Monday 9, 1:00 – 3:00 PM*)

1053: **Generation of Cell-based Assays by Genome Editing Approaches** (*Tuesday 10, 1:00 – 3:00 PM*)

Posters reprints are available at the Axxam Booth (#1625)
